Summary

As a web front-end developer, I offer a unique blend of skills and passion that sets me apart. I bring a diverse skill set and a wealth of experience gained from working on a variety of web development projects. I take pride in writing clean and precise code, which not only ensures efficient functionality but also facilitates easy maintenance and scalability. I am a passionate person willing to learn more technologies to become a better developer than I was yesterday. I achieved an overall percentage of 99% in my bootcamp and placed first out of 57 people in my bootcamp. Created websites and landing pages for fictional companies using HTML, CSS, and JavaScript.

Skills

Bootstrap • Scss (sassy css) • React • JavaScript • Firebase • Tailwindcss • MongoDB • Express (express.js)

Work Experience

full-stack development bootcamp

Oct 2023 – Dec 2023 • 2 mos

[hyperionDev](#) • Full-time

Remote

Technologies: HTML/CSS • JavaScript • React • Express (express.js) • Bootstrap

In my bootcamp, I successfully designed, developed, and deployed impactful solutions, showcasing proficiency in both front-end and back-end development. Leveraging React for intuitive user interfaces and Express.js and Node.js for robust server-side applications. I am well-equipped to drive innovation and success in challenging projects. With a solid foundation in front-end technologies and a keen eye for design, I am ready to contribute my talents to a team that values innovation, creativity, and a commitment to delivering exceptional user-centric solutions.

- Achieved an overall percentage of 99% in my bootcamp
- Placed first in my bootcamp
- Created multiple applications in both front-end and back-end for fictional companies using HTML, CSS, and JavaScript
- Created two full-stack applications, a To-do app and a iTunes search music app which interacts with iTunes search API

Projects

iTunes Search App

Nov 2023 – Dec 2023 • 1 mo

Technologies: JavaScript • HTML/CSS • Bootstrap • Express (express.js) • React

I developed an iTunes search app, enabling users to explore their favorite artist's songs and albums. This full-stack application seamlessly interacts with the iTunes Search API, fetching and beautifully presenting music data for an enhanced user experience.

To-Do App

Oct 2023 – Nov 2023 • 1 mo

Technologies: HTML/CSS • JavaScript • Express (express.js) • Node.js • Bootstrap

- Full-stack to-do app with JWT authentication for secure user login and registration.
- Seamless functionality for adding, removing, and editing tasks in real-time.
- Intuitive design that allows users to efficiently manage their to-do lists.
- Checked items feature for users to mark tasks as completed.
- A robust application showcasing proficiency in full-stack development.
- Seamlessly integrating backend functionality with frontend interactivity for an engaging To-Do experience.

Education

full-stack web development: software engineering

Oct 2023 – Mar 2024 • 5 mos

Stellenbosch University Web Development Bootcamp in Partnership with HyperionDev

Johannesburg, South Africa

Grade/GPA: Average grade of 99%

- Completed intensive full-stack web development bootcamp
- Proficient in HTML, CSS, and JavaScript for front-end development
- In-depth training in backend technologies, including Node.js and Express.js
- Experienced in database management using MongoDB
- Skilled in using React.js for building interactive user interfaces
- Knowledgeable in the principles of RESTful API design
- Comprehensive understanding of the MERN (MongoDB, Express.js, React.js, Node.js) stack
- Developed dynamic, data-driven web applications during the course
- Passionate about creating user-centric and responsive digital experiences.
